

LOGNOTE -- Chief, Operations Group, 17 May 1985

1. (Williams) [] called this morning to say that the lease for the new bureau property had run into a snag. Apparently the Archbishop is having trouble assembling clear title to all the land. There is some sort of water rights issue involved. Chuck's lawyers and the GSO feel that things will work themselves out; if the Archbishop, who is the second most powerful man on Cyprus, can't solve the problem, no one can. In any case they are not inclined to spend any more time trying to solve what is, after all, the Archbishop's problem. There will be another meeting of the lawyers from both sides on Saturday. [] will let us know the results early next week.
